NEW YORK, Dec. 3 .- "There is ablutely nothing to prevent Mrs. Cassle Chadwick from leaving the Holland House with her baggage if she sees " said Philip Carpenter, counsel for Irs. Chadwick, when asked tonight ncerning the report that a writ of ttachment had been served on all her ersonal belongings at the Holland Louse, to satisfy a claim of \$1357 which a Fifth avenue modiste had

wainst her. "The papers were served on the manor of the hotel, and not on my client wice null and void," continued Mr. arpenter. "As a matter of fact, Mrs. hadwick had no intention of leaving lew York for a few days, but there ould be no legal obligation if she saw according to my view of the law."

Mr. Carpenter is of the opinion that e appointment of a receiver in Clevend will not complicate matters unsarlly. "It must be borne in mind." e said, "that there is a great differ-

HAPPY CHILDHOOD

Right Food Makes Happy Children Because They Are Healthy.

Sometimes milk does not agree with children or adults. The same thing is true of other articles of food. What agrees with one sometimes does not agree with others.

But food can be so prepared that it will agree with the weakest stomach. s an illustration-anyone, no matter ow weak the stomach, can eat, relish nd digest a nice hot cup of Postum ffee with a spoonful or two of Grape uts poured in, and such a combination number of hours, for almost every p by the system and be made use of. A lady writes from the land of the lagnolia and the mocking bird way down in Alabama and says: o drink Postum because coffce gave me our stomach and made me nervous. Again Postum was recommended by two well-known physicians for my children and I feel especially grateful for the

ence between voluntary and involuntary bankruptcy."

No Hurry About It.

Nathan Loeser, who was appointed receiver in Cleveland yesterday, said today that, as it would be necessary to bring an action in court to gain possession of Mrs. Chadwick's property, he undoubtedly would defer action for a time, and that before taking further steps he would confer with Mrs. Chad-wick's counsel. The attorneys repre-menting her in New York have not yet had any communication from Mr. Loes-er, who is in the Ohio city.

A man who is fully conversant with Mrs. Chadwick's affairs, said tonight that by the time the bankruptcy matter came to the attention of the court the claims of Mrs. Chadwick would be settled, rendering further action by the courts unnecessary. He said that the turn of affairs in Cleveland would not affect the settlement of the claim of Herbert D. Newton of Brookline, Mass., whose suit against Mrs. Chadwick was the first filed.

Will Satisfy Every Claim.

An interesting feature of the case today was the optimistic view taken by the Chadwick counsel. Philip Carpenter said emphatically that his client is a wealthy woman and amply able to meet every just claim against her. Judge Albaugh, of Canton, who is guarding the Chadwick interests in Ohio, expressed confidence in the belief that she would "come out all right in the end."

In contradiction to the statement of Mr. Carpenter, Deputy Sheriff Frank C. Rinn said tonight that he served the attachment on Mrs. Chadwick's personally today, after first serving it on a clerk and Manager Harriman of the Holland House.

He found Mrs. Chadwick reclining on

couch, and, owing to her deafness, a loud voice. When he made his er-rand known, Mrs. Chadwick took the papers and placed them on the table beside her. He continued:
"I searched the room, but all I could

find was a small hand bag and the woman's hat and jacket, which does not constitute all of her effects. "I shall go to the hotel the first thing Monday morning and inform the man-agement that I want from them a state-ment of whatever effects they have be-longing to Mrs. Chadwick, either in the

ray of valuables deposited in the safe

or a parcel such as might be contained in her trunks." Bordering on Collapse.

Mrs. Chadwick is said to be in a state bordering almost on collapse tonight. The nervous strain of the last few days has been so great that she is almost hysterical. Dr. Moor, her medical at-tendant, was called in tonight and after

"Mrs. Chadwick is suffering from nothing except the nervous strain which she has been undergoing. It is no wonder that a woman of her age would give way considering what she has been through lately. There is, how-

ever, no constitutional trouble."

The Tribune tomorrow will says: All of Mrs. Cassle L. Chadwick's effects are in the possession of the Savings Deposit Bank and Trust company of Elyria, O., under a chattel mortgage given in April and filed in Cleveland on November 22 The mortgage is admitted in a statement signed by the entire directorate of the bank.

Mrs. Chadwick's Millions.

CLEVELAND, O., Dec. 3.—In the proceedings brought about by the suit of Mr. Newton against Mrs. Chadwick to recover a large loan frequent men-tion has been made of an attest for \$5,-000,000. Today a copy of the alleged attest was printed.

It was written on a letter head of the Wade Park Banking company. Following is a copy of it:
"Cleveland, O., May 23, 1992. To whom

it may concern:
"I hereby certify that I have in my possession five million dollars (\$5,000,-000) in securities belonging to Cassie L. Chadwick, and that neither myself nor the Wade Park Bank nor any other

person has any claim upon the same.
"IRI REYNOLDS."
When asked about the authenticity of this note Mr. Reynolds tonight refused to either affirm or deny its authenticity. He said that he would talk about his dealings with Mrs. Chadwick only on

Don't you know that a germ disease must end when the germ's are killed? And that it cannot be cured until then? Then why use medicine for what medicine cannot do? Liquozone a lone can kill germs. Will you let us buy you a 50c. bottle

ern physician knows that nearly sickness—the little ills and the big ones—are caused by germ attacks. They know that these germs must be destroyed before the sickness can end. And they know that drugs never kill

inside germa.

Those modern physicians are now using Liquozone. And millions who using Liquozone. And millions who were sick—like you, perhaps—are well today because of it. The cured ones are everywhere; some are your neigh-bors, your friends. Won't you ask them about Liquozone?

been about Liquozone?

Don't cling to the old ways blindly, when your health is at stake. There is a new way to cure sickness, by destroying the cause. And we will gladly pay the cost while you try it.

What Liquozone Is

Liquozone is not a medicine. It is not made by compounding acids or drugs, nor is there any alcohol in it. Its virtues are derived solely from gas -largely oxygen gas-by a process re-quiring immense apparatus and 14 days time. Each cubic inch of Liquozone requires the use of 1,250 cubic inches of gus.

Liquozone is the result of a process, which, for more than 20 years, has been the constant subject of scientific and chemical research. The main reinto the blood, a powerful, yet harm-less, germicide. Another result is to create a vitalizing tonic with which no other known product can compare.

Acts Like Oxygen

The great value of Liquozone lies in the fact that it does what oxygen does. Oxygen is the vital part of sir, the very source of vitality, the most essential element of life. It is the blood

On every bottle of Liquozone we publish an offer of \$1,000 for a disease germ that it cannot kill. We do that to convince you that Liquozone does kill germs.

Think what that means. Every modules have street being been about the property of the published and the property of the published and the property of the published and the publi it gives strength to every function of Nature.

Oxygen is also a germicide. The reason is that germs are vegetables; and an excess of oxygen-the very life of an animal-is deadly to vegetal matter. Liquozone acts like oxygen. But it does more than oxygen, because it is stable. It carries its virtues into the blood to go wherever the blood goes. It is a remarkable tonic—the best thing in the world for you. Yet it is a germicide so certain that we pub-lish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The discoverer of Liquozone has solved the great problem of kill-ing germs in the body without killing the tissues, too. And there is no other way. Any drug that kills germs is a poison and it cannot be taken internally. Liquozone is the only way that any man knows to end the cause of any germ disease.

One Million Dollars

Have been spent by us to give Liquozone away. Our offer to buy the first bottle has been accepted by 1,800,-000 people. And we have spent this vast sum to publish the offer and to fulfill

The result is that millions now use it. These people have told others about it, and the others told others. Your own neighborhood, wherever you are, is full of Liquozone users. And half the people you meet know some one whom Liquozone has cured.

We tested this product for two years, through physicians and hospitals, in this country and others, before we made the first bottle. We proved it in every kind of germ dis-ease-in thousands of the most difficult ease—in thousands of the most difficult All diseases that begin with fever—all cases obtainable. We cured with it inflammation—all catarrh—all contagious

Germ Diseases

These are the known germ diseases; all due to germs, or the poisons which germs create. These are the diseases to which medicine does not apply, for drugs cannot kill inside germs.

All that medicine can do for these

troubles is to act as a tonic, aiding Na-ture to overcome the germs. But those results are indirect and uncertain. They depend on the patient's condition. When drucs were prescribed for these troubles, nobody knew of germs. Now every good physician knows that they call for a germicide.

Liquozone alone can destroy the cause of these troubles. It goes wherever the blood goes. No germ can escape it, and we have found no disease germ which can resist it. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. In any stage of any disease in this list the results are so certain that we will gladly send to any patient who asks for it an absolute guaranty.
